Week 12 - QUIZ..... 11

Week 12 ALT + G, ALT + L, F11 or SHIFT + CTRL + P, CTRL + 0, alt + TAB

SUMMARY	
Description	Shortcut
Jump to Gender	ALT + G
Jump to Location	ALT + L
Show work pool	F11 or SHIFT + CTRL + P
Hide all panels and only show editor	CTRL + 0 (zero)
ALT + TAB	Switch between windows programs

Legend: White – InScribe Core or Windows Shortcut; Green – Navigation; Blue – Structured; Purple – Editing; Tan – Playback

Note: These exercises assume you do not have the “Attach edit cursor on play enabled”. If this is enabled, it is recommended to disable this to perform these exercises. To disable this, go to File > Options > Playback, and uncheck the box “Attach voice cursor on play”. When finished with the exercises, if you disabled the “Attach edit cursor on play”, remember to re-enable this. You only need to do this, if you prefer the edit cursor automatically be attached on play in your normal working environment.

ALT + TAB (Switch between windows programs)

Instructions: Load the Practice Drafts Structured training program. Load the “Discharge Summary type draft” for these exercises.

Note: for this exercise, make sure you have a web browser open to the [drugs.com](https://www.drugs.com) and also have notepad running along with InScribe. That is the minimum amount of programs you should have open for this exercise. It is possible you may have other windows programs open too.

EXERCISE 1:

- a) Make sure InScribe is the active program. Use ALT + TAB to bring up the switch programs window. While holding down the ALT key hit the TAB key until you select the web browser program running the drug reference website, when you have selected that site let go of ALT + TAB. You will now notice the web browser window has become the active one.
- b) Use ALT + TAB to switch back to InScribe. While holding down the ALT keep pressing TAB until the InScribe window becomes the active one again.
- c) Repeat using ALT + TAB to move to the web browser, once it's selected use ALT + TAB to move back to InScribe. Repeat this 5 x.
- d) With InScribe as the active program jump to the patient ID field and change that to 1176, when the Appointment Search appears select the last appointment and hit ENTER.

EXERCISE 2:

- a) Use ALT + TAB to make the notepad program your active window. When notepad is active, type “This is a test. I'm using ALT + TAB to switch between active open windows.”
- b) Use ALT + TAB to make InScribe the active window. Using the best shortcut to position the edit cursor on the word “metabolic” in the Laboratory Data section and start playback from that point. Attach the edit cursor to the voice cursor. Speed up the playback 2 times, let the audio play for 3 seconds. Return playback rate to normal stop the playback. Hide all panels.

- c) Position the edit cursor at the end of the Extremities section. Add a new main section called Radiographs. Add the text “Four views taken of the left ankle show no significant changes to the boney structure” Show all panels.
- d) Jump to the Author field, jump back to the body.

EXERCISE 3:

- a) Navigate to the Diagnoses on Discharge and Plan section, position the edit cursor on the second bullet point. Start playback, attach the edit cursor to the voice cursor, correct the remaining text in this section speed up or slow down the playback as need, try not to stop the playback.
- b) With the corrections made, use the best shortcut to navigate to the medication “Levaquin” in and copy that to your clipboard.
- c) Use ALT + TAB to switch to the drug website. Search for that drug by pasting it into the search box of the site. Look up that drug’s dosing. Find the lowest dosage.
- d) Use ALT + TAB to switch back to the InScribe program and add the dosage after that word to the lowest dosage you just looked up.
- e) Use ALT + TAB to switch to the notepad program, create a new line and type “I just used ALT + TAB to look up a drug dosage and add that to the Diagnoses on Discharge and Plan section in InScribe”.
- f) Use ALT + TAB to switch back to InScribe. Position the edit cursor at the end of the Hospital Course section. Using the best shortcut insert the dictation template titled “Normal PE w Blanks”. Jump to each bracket and add the following values: 65, 120/88, “No clubbing or edema”, 5/5, the base of the neck.

EXERCISE 4:

- a) Use ALT + TAB to switch to the drug website.
- b) Hold down ALT tap TAB but keep holding down ALT. Use any of the arrow keys to select the drug website, when it’s selected release the ALT key.
- c) Use ALT + TAB to switch programs while holding down ALT use the arrow keys to select Notepad and let go of the ALT key. Type “I just used my arrow key to select the notepad program”.
- d) Use ALT + TAB, with the tab to make InScribe the active window again. Hide all panels.
- e) Position the edit cursor on the last line of the after the last line of the Laboratory Data section. Add a new Plan section. Add the following bullets “Repeat Labs in 2 weeks”, “Drink Plenty of Fluids”, “Call the office in 2 weeks for results”. Show all panels. Preview the transcription. When the preview window appears review it for 2 seconds then close it.
- f) Use ALT + TAB to switch to the drug website. Look up the drug, Lyrica. Copy the first paragraph of the Lyrica definition to the clip board.
- g) Use ALT + TAB then use the arrow keys to switch to notepad and paste that paragraph into notepad.

- h) Use ALT + TAB to switch back to InScribe. Using the best shortcut, navigate to the Hospital Course section. Start playback from the beginning of that section, attach the edit cursor to the voice cursor and make all appropriate corrections to that section. Use the speed up and slow down techniques when possible. Try to minimize stopping the audio. When all corrections are made stop the audio.
- i) Use ALT + TAB to switch to notepad, type "I've completed exercise 4". Use ALT + TAB to switch to the drug website. Use ALT + TAB to switch back to InScribe.

Week 12 - QUIZ

1. What shortcut is used to jump to the Gender field of the demographics?
 - a) CTRL + G
 - b) ALT + P + G
 - c) CTRL + ALT + G
 - d) ALT + G

2. What shortcut is used to jump to the Location drop down?
 - a) ALT + L
 - b) ALT + D
 - c) CTRL + L
 - d) SHIFT + D

3. What shortcut is used to show the Transcriptions in pool window?
 - a) ALT + P
 - b) SHIFT + CTRL + P
 - c) F11
 - d) b and c

4. What shortcut is used to maximize the editor, hiding all of the dictation queue, demographics, cc's Addl Auth, comments panels?
 - a) CTRL + F6
 - b) CTRL + 0
 - c) CTRL + 9
 - d) ALT + 9

5. True or False? ALT + TAB allows you to switch between currently running programs without using your mouse.

6. True or False? When using ALT + TAB, you cannot use the up or down arrow keys while holding down the ALT key.

7. True or False? CTRL + 0 acts as a toggle, that is you can use this shortcut to both show and hide all InScribe panels.
